EXPERIENCE

Movimiento y Vida: Physiotherapy Clinic Website

Website for a physiotherapy and rehabilitation clinic, showcasing all the services offered. It employs innovative methodologies like Apple's x-mandatory systems.

Technologies: Astro, CSS, JavaScript.

PROJECTS

Movie Web App: React Web Application

A movie web app that fetches data from an external API (TMDB) using React. Users can search for any movie, view its description, and see its TMDB rating. It also displays the latest releases.

Technologies: React, Tailwind CSS.

React Games: Simple Games Web Application

A web app featuring simple games developed with React. This project is being carried out to learn and refine knowledge about React.

Technologies: React, CSS.

Monopoly: Monopoly Game in Java

In my second year of university, I developed the Monopoly game using the MVC (Model-View-Controller) architecture and OOP (Object-Oriented Programming).

Technologies: Java.

Website Redesign: Nothing Phone 2

Redesign of the main page of the Nothing Phone 2. A minimalist style and GSAP-style animations using only CSS were employed.

Technologies: Astro, CSS, JavaScript.

Recipe Blog: Web Application for Recipes

A recipe blog where users can view and create their own recipes. It includes fundamental CRUD operations (Create, Read, Update, Delete)

SKILLS

Self-taught

Effective leadership under pressure

Teamwork

Passionate and committed

KNOWLEDGE

Astro, React

Git, GitHub
